A vet listens to a dog's heart.

Veterinarian

Vets are animal doctors. They take care of pets and other animals. To become a vet a person has to go to school for eight years after high school. A vet needs four years of college, and four years of vet school.

Wildlife Photographer

If you like taking pictures, you might want to be a wildlife photographer. They take pictures of wild animals.

Wildlife photographers need to take lots of pictures to become good. They need to know how to use a camera. They need to go where the animals live.

Wildlife photographers get close to animals.

Zookeeper

Zookeepers feed zoo animals the right kinds of food and keep the animals' cages clean. If an animal is sick, they let the zoo vet know.

Being a zookeeper can be a hard job. Some animals bite or kick. Zookeepers also have to lift heavy things like bales of hay.

Zookeepers often go to school for several years after high school to learn about animals and how to care for them.
